MACKIE MIXERS'

FireWire, studio quality and a whole lot more

Mackie's new d.pro series of DJ mixers are now in stock, bringing new unrivaled features to the DJ booth and studio. These new two and four channel mixers feature FireWire capabilities, studio quality sound and offer something for everyone. Turntablists will love the contact-free fader with optimal tension cutoff points. Producers can eliminate the need for separate computer audio interfaces and utilize the FireWire capabilities for seamless, instant multi-track recording and playback. DJs can simply plug either the d.2 Pro or d.4 Pro into a laptop and start playing digital music files from iTunes, Traktor, MixVibes, Ableton Live and more.

MACKIE STUDIO MONITORS

Hi-fi sound, amazing price

Mackie has come up with a winning pair in their MR5 and MR8 studio monitors that deliver power and performance at an incredible price. The MR5 features a 5.25-inch woofer and a 1-inch high-resolution tweeter coupled with a high-headroom 55/30W Class A/B bi-amp. The MR8 has an 8-inch steel frame low distortion woofer and a 1-inch high-resolution tweeter coupled with a high-headroom 100/50W Class A/B bi-amp. The best part is the price. The MR5 will set you back about \$199. The MR8 kicks it up to \$329. Awesome sound, amazing price—we're sold. mackie.com
